

## **NOTICE OF INFORMATIONAL MEETING AND INTENT TO ISSUE REQUEST FOR QUALIFICATIONS AND FINANCIAL PROPOSALS**

The Utah Transit Authority (UTA) is providing public notice of an informational meeting regarding its transit oriented development (TOD) developer program. It is anticipated that the developer program may include a bundle of potential TOD properties.

UTA intends to select developers for joint development and Transit Oriented Development (TOD) opportunities at and near UTA's transit corridors. Potentially, a developer may be selected for one or more properties or bundle of properties.

The informational meeting will occur on **Wednesday, June 1, 2011**, from 1:00 p.m. to 4:00 p.m. at UTA's offices located at 669 West 200 South, in Salt Lake City, Utah 84101. The building is Americans with Disabilities Act (ADA) compliant. To assure full participation at the meeting, accommodations for effective communication, such as sign language interpreters or printed materials in alternate formats, or a language interpreter for non-English speaking participants, must be requested at least five (5) working days prior to the date of the scheduled event. Requests for ADA accommodations should be directed to UTA ADA Compliance Officer at 801-287-3536 or dial 711 to make a relay call. To request a language interpreter, please contact the UTA Title VI Compliance Officer at [rhendricks@rideuta.com](mailto:rhendricks@rideuta.com) or 801-741-8871. Any questions regarding the informational meeting should be directed to Mr. Gregg Larsen, UTA Grants & Contracts Administrator, at [glarsen@rideuta.com](mailto:glarsen@rideuta.com).

Under a separate public notice, UTA will advertise its intent to request Letters of Interest from potential proposers in response to a Request for Qualifications and Financial Proposals. At each of the potential TOD sites UTA owns property and is prepared to enter into agreements with the developer for joint or other development of the property. Potential developers should note that some of the property available for development was purchased by UTA using federal grants and, as such, may subject the successful developers to certain federal requirements.

Further notices regarding the informational meeting and any availability of an RFQ/FP will only be posted on UTA's Web site ([www.rideuta.com](http://www.rideuta.com)).
